Data Security

Introduction

EveryCa is committed to protecting the privacy and security of our customers' and users' data. This Data Security policy outlines our approach to data security and the measures we have in place to protect the personal information of our customers and users.

Data Collection

We collect personal information from our customers and users in order to provide our services. This information may include names, email addresses, phone numbers, billing information, and other information necessary to provide our services.

Data Storage

We store all data securely in data centers that are designed to protect against unauthorized access, disclosure, and destruction. We use industry-standard security technologies and protocols to protect data from unauthorized access.

Data Access

We limit access to customer and user data to authorized personnel who require access to provide our services. We have strict access controls and protocols in place to ensure that only authorized personnel have access to customer and user data.

Data Processing

We process customer and user data only for the purposes for which it was collected and in accordance with our Privacy Policy. We do not share or sell personal information to third parties.

Data Breach Notification

In the event of a data breach, we will notify affected customers and users as soon as possible. We have procedures in place to detect, report, and investigate data breaches, and we will work with affected customers and users to mitigate any damage caused by the breach.

Compliance

We comply with all applicable laws and regulations related to data privacy and security, including the General Data Protection Regulation (GDPR). We also regularly review and update our security practices to ensure that they are in line with industry standards.

Conclusion

We take data security seriously and are committed to protecting the personal information of our customers and users.
